

S-100 WORKING GROUP

S-100WG Letter 1/2019

20 March 2019

S-121 Maritime Boundaries and Limits Product Specification

Dear S-100 Working Group Member,

The IHO S-121 Project Team has completed a draft edition of the S-121 Maritime Boundaries and Limits (MLB), Product Specification, which is now available for review and comment. The S-121 Product Specification includes a data model that describes the content (digital data structure) of MLB information, the data classification and encoding guide, and an exchange format used to encode, store and transfer MLB information.

As the S-121 Project Team is a subsidiary body of the S-100 Working Group, I am requesting your comment and feedback on the current draft edition documents that are available for download (as compressed .zip and .pdf formats) from the IHO website at https://www.iho.int/mtg_docs/com_wg/S-100WG/S-121PT/S-121PT.htm

You are kindly requested to review the S-121 Product Specification documents and provide any feedback to the S-121PT using the attached comment sheet by June **20, 2019**. Please send comments to the IHO Secretariat Tony Pharaoh (Anthony.Pharaoh@ihb.int).

Yours sincerely,

A handwritten signature in black ink that reads "Julia Powell". The signature is written in a cursive, flowing style.

Julia Powell
(IHO – S-100WG Chairman)
