ARMSDIWG

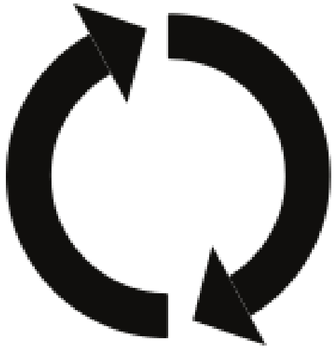
Status and focus

Who we are

MSDI-group under the Arctic Regional Hydrographic Commission (ARHC)

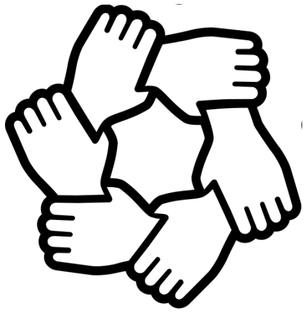
- **Canada** - Chris Hemmingway / Bill Goodine
- **Norway** – Gerhard Heggebo / Geir Arne Nordhus
- **Finland** – Juha Tiihonen
- **USA** – Matt Boeding
- **Denmark** – Christian Thellufsen (Chair)

OVERALL GOALS IN ARMSDIWG



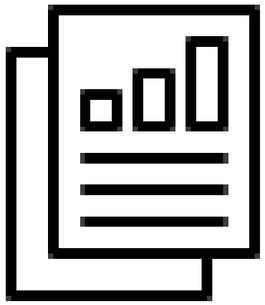
BOOST SHARING

Foster Arctic data sharing among in the community



ARCTIC UNITY

Strengthen ties with relevant organizations



YEARLY INSIGHTS

Deliver sharp ARHC reports with clear action plans

What we are doing right now

NEW WEBSITE COMPLETION

Enhance the collaborative website with additional resources like agendas and minutes

MSDI DATA SERVICE SURVEY

Clarify objectives with ARHC, propose execution strategies

ARCTIC SDI DATA POLICY

Engage in building an Arctic SDI Data Policy with a blue touch

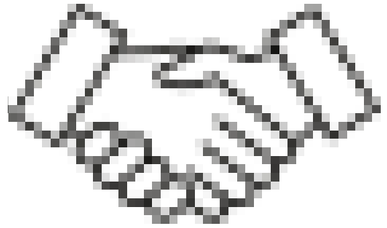
Arctic SDI as a prime focus area

ARCTIC SDI
Arctic Spatial Data Infrastructure

ARCTIC SDI
Arctic Spatial Data Infrastructure

More than a partnership

"Engaging with Arctic SDI is not just a partnership; it's a strategic alliance that enables ARMSDIWG to weave the crucial marine narrative into the fabric of Arctic Data Policy. This collaboration ensures that the depths of our oceans are not overlooked but are integral to the conversation, empowering us to shape a more comprehensive and inclusive understanding of the Arctic's environmental challenges and opportunities."



ENHANCING MARINE PERSPECTIVES

Collaboration with Arctic SDI in general

FORWARD FOCUS

Actively contributing to a Arctic Data Policy

FUTURE PATHWAYS

Advancing marine focus through continued collaboration

ARCTIC SDI
Arctic Spatial Data Infrastructure

THREE FOCUS AREAS

How we want to cooperate in our group

MAXIMIZE RESOURCES

Strive to work optimally with the resources available to us

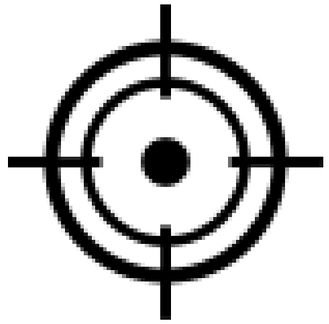
VALUE CREATION

Focus on activities that generate tangible value

ENERGIZING TASKS

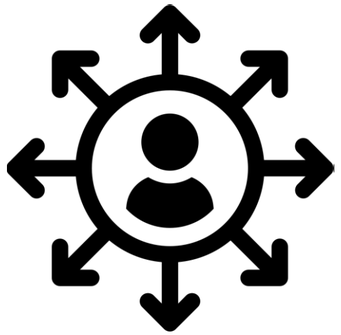
Pursue tasks that invigorate and energize the members

HOW WE TRY TO DO IT



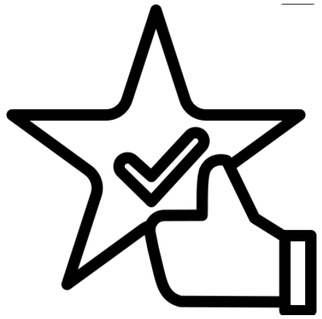
FOCUSED TASK SELECTION

Concentrate on a select number of tasks to ensure quality and manageability



BREAK DOWN & DELEGATE

Aim to decompose tasks into smaller, manageable units and distribute them effectively



PRACTICE & ACKNOWLEDGE

Recognize the challenges of international collaboration and continuously improve our cooperative skills

Together, we're taking small steps to unlock big changes in Arctic marine data sharing. Each shared data point charts a course toward a future of open, flowing knowledge. Let's break the ice, one step at a time.

THANK YOU
