15th Meeting of the Marine Spatial Data Infrastructures (MSDI) Working Group

C-17 Live Documents
(reference: action 2019/23,24)

## Agenda Item 12.1

MSDIWG15, Bali, Indonesia, 4 – 8 March 2024

A WAY FORWARD

The IHO Secretariat has been initiated document management efforts using Github to manage IHO publications and improve services.

For example, S-102PT is currently revising the S-102 Product Standard using the Github repository.

The IHO Sec. to proposes to manage C-17 documents using Github.
- Initial trial: C-17 Ed.2.0 Live document(generated via the Github)

ACTIONS REQUESTED FROM MSDIWG

1. Take note

2. Discuss the proposal and agreed to proceed as suggested by the IHO Secretariat.

3. If approved, Set up a Document Management Team (DMT) to manage the contents via the Github.
