NAVAREA XI OPERATIONS AND UPDATES

Changes in National Coordinator Contact Information

- New point of contact (Phone number, email):
Brunei Darussalam, DPR Korea, Indonesia,
Malaysia, Viet Nam.

Changes to the GMDSS Master Plan

- [China] - The relocation of Shanghai NAVTEX station
(518 kHz, 486 kHz and 4209.5 kHz) and
some changes including languages
-Editorial mistakes of the B1 characters for
the national NAVTEX stations (486kHz)
- [Vietnam] - The coverage areas changed from 400NM
to 250NM for international and national
NAVTEX stations.

S-124 Development

- As NAVAREA XI coordinator, Japan is preparing for
providing S-124 data so that it can be introduced in
2026.
- Japan keeps an eye on and contributes discussions
on S-124 in the IHO and IMO to deal with the latest
trend in a timely manner.
- Several countries in NAVAREA XI are interested in
capacity building on S-124.
