What you told us

Four priorities

1. Process for assessing what is needed in each country to improve safety in their waters (links to CB strategy)
2. Deliver S-100 goals NB delivering these goals will require us to work differently
3. Broader networks – beyond IHO and with a louder Pacific voice
4. Use capacity building and training to develop and increase the ability of member states to support safety and efficiency of maritime navigation

Theory of Change (ToC) - Narrative

DRAFT Theory of Change Narrative

- This Theory of Change (ToC) describes the next 3–5 years of the development of hydrography in the South-West Pacific region.
- This is a time of significant opportunity given the platform we have built through our work in the last 3 years to increase our influence within the IHO (2 seats on Council) and increase representation from Pacific Island Countries in IHO Working Groups and decision-making bodies.
- The ToC is co-created and has meaning for all SWPHC Members. It will support more effective regional collaboration; promote the value of hydrography and open data; and provide a strategic framework and pathway to ensure a place at the table as an equal partner to deliver maritime safety outcomes in the region.
- We recognise that the ToC is ambitious. In translating this into a workplan we will need to agree what is feasible, realistic and establish priorities, working in partnership with regional organisations.
- We know that working in partnership with the Pacific Island Countries includes providing assistance in a sustainable way, based on their needs. This includes ongoing support and mentoring, adapted to their absorptive capacity and helps them increase the hydrographic influence of Maritime Administrations in country and share experiences across the region.

Activities

MSDI

MSDI Chair (Helen)

GOAL – Work in the Pacific Way

ACTIVITY - Align the SWPHC MSDI WG ToR with the MOU between IHO and SPC.

ACTIVITY – Align SWPHC MSDI ToR with the "Pacific Way".

ACTIVITY – Align and engage with other WGs, user groups and communities within the region.

SWPHC22 - IGIF Talanoa

GOAL – Members understand and know how to use IGIF to best support their needs in an applicable way

ACTIVITY - Promote the work already completed - IGIF Videos, link up with UNGGIM, Feedback and contact us mechanism, socialise videos in UNGGIM IGIF meetings.

ACTIVITY - Gather feedback on the value and need for the implementation and adoption of IGIF.

ACTIVITY - Longer Term - Targeted efforts to support IGIF implementation and adoption within region in alignment with feedback gathered.

SWPHC22 IGIF Maturity assessment

GOAL - Engage with regional organisations to encourage Coastal States within the region to share data.

ACTIVITY - Promote the work already completed and gather feedback – “why should you share data” publication.

ACTIVITY – Investigate the need for support regarding data sharing.

ACTIVITY – Longer Term - Provide targeted guidance on how to share data, including (but not limited to) policy and practical infrastructure aspects in alignment with feedback gathered.

Encourage MS and coastal states to supply ENC sounding data to Seabed 2030 and IHO DCDB

Promote, initiate and coordinate CSB & SDB programs in SWP region and encourage coastal states to submit bathymetry data to

Seabed 2030 and IHO DCDB

Report on gaps and opportunities in SWP data coverage

Permanent

Maintain current & encourage new IHO Membership and engagement within the Region

Ensure representation across IHO WGs

SWPHC Representation at Council - 2 seats

SWPHC22

Initiate regular (quarterly?) catch-up meetings between SPC and SWPHC to consider training and project

opportunities, collaboration etc to share with members – action SWPHC Chair

Regional Analysis of MS regulatory status regarding non-ECDIS vessels for IHO WG Sub-ECDIS – Aus to coord, via

Michael Andrew

Investigate new functionality of INTtoGISIII in relation to data quality in the region – ICCWG / SWPHC Chair

Investigate and share other opportunities for data collection / sharing – all

Review (annually) SWPHC membership across IHO technical working groups and ensure knowledge transfer –

pre/post briefs

Encourage and support IHO visits to IHO non-member States – PCAs and SWPHC Chair

Activities & Outcomes

Activities	Intermediate Outcomes					
	Hydrography, (Hydrographic Offices) HOs and the IHO are seen as equal partners (with IMO and IALA) in maritime safety in the region	HOs are valued by their governments and have increased influence and resources	Change how HOs are seen. We're a strategic partner working with others to impact global challenges and longer-term outcomes	Increased focus on sustainability of assistance to Pacific Island countries	Representation in the region and internationally in thinking and decision-making bodies that better reflects countries within region	Increased confidence to collaborate and work in partnership within the region and internationally
